Hiral Soni

Full Stack Developer

+1 (680) 946-7197 | ihiralsoni@gmail.com | Toronto, ON

LinkedIn | GitHub | Portfolio

Experienced Full Stack Developer with a strong command of frontend and backend technologies. Proficient in a variety of programming languages and frameworks, specializing in delivering end-to-end web solutions. Known for problem-solving skills, efficient project management, and successful project delivery.

EXPERIENCE

FiatMatch (Internship)   *May 2023 – August 2023*

Full Stack Developer

- Collaborated on a complex B2B dashboard with tight deadlines and diverse technologies.
- Built 10+ key features in React.js, Next.js, TypeScript, Redux, and Tailwind CSS, adhering to strict project specifications and implementing API integrations.
- Delivered project 2 weeks ahead of schedule, exceeding quality expectations and achieving 100% completion. Streamlined workflow for improved team efficiency.

Infinity Brains   *March 2021 – October 2021*

Laravel Developer

- Enhanced user experience and ensure reliable backend operations for a hospitality tech project.
- Developed and optimized Laravel APIs, implemented Postman for rigorous API testing, and leveraged strong SQL skills to design efficient database structures and write complex queries.
- Increased web app functionality, significantly improved user experience, and optimized database performance.
- Managed 3 concurrent projects through the entire SDLC, delivering consistent high-quality results.

Narola InfoTech   *January 2019 – July 2019*

Software Developer

- Oversaw software development for client satisfaction and achieve feature expansion.
- Successfully delivered 2 projects on time, integrated Amazon API to enhance functionality, and implemented optimized database design techniques.
- Resolved errors swiftly, ensuring client satisfaction and exceeding expectations. Reduced query execution time and improved overall system performance, contributing to effective software solutions.

EDUCATION

Humber College, Toronto   *January 2022 – August 2023*

Post Graduate Diploma – Information Technology Solutions

Sarvajanik College of Engineering and Technology – India   *August 2015 – May 2019*

Bachelor of Engineering – Information Technology

PROJECTS

TaskMaster
- Increased user engagement 20% by building TaskMaster, a React.js web app for efficient task management with data visualization with charts and calendars.
- Enhanced data security by implementing secure user authentication with JWT tokens and Passport.js, preventing unauthorized access.
- Improved system performance by 15% by utilizing Node.js, Express.js, and MongoDB for optimized backend architecture.

RedPrix
- Streamlined user experience 10% by developing and testing scalable RESTful APIs with Laravel, reducing response time.
- Increased platform responsiveness 8% by optimizing MySQL database operations and query execution.
- Fostered seamless UI/UX integration through collaboration with front-end developers, improving user satisfaction.

TECHNICAL SKILLS

Frontend Development
- ReactJS, Next.js, Redux, AngularJS
- Tailwind CSS, Bootstrap, CSS

Backend Development
- NodeJS, Express.js, TypeScript
- PHP, Laravel, Java

Web Technologies
- HTML, Ajax, JavaScript, jQuery

Database Management
- SQL, MongoDB, MySQL

Version Control
- Git, GitHub

API Development and Integration
- RESTful API design principles
- Third-party API integration

Security and Authentication
- Passport.js, JWT, OAuth
