Hiral Soni

Software Engineer

+1(647)866-7197 | ihiralsoni@gmail.com | Toronto, ON

LinkedIn | GitHub | LeetCode | Portfolio

Full-stack developer with 3+ years of experience using **Node.js, TypeScript, React, and MongoDB** to build and optimize scalable web applications and RESTful APIs. Passionate about solving complex problems and excited to contribute technical expertise to high-scale, impact-driven teams.

EXPERIENCE

One Community Global   *March 2024 – July 2024*

Full Stack Developer

- Improved **rendering speed** by optimizing React state management and reducing unnecessary re-renders.
- Refactored code, cutting load times by **20%** and increasing efficiency.
- Updated and **enhanced the front-end UI**, leading to a smoother user experience and increased engagement.
- Actively participated in **code reviews** and **debugging**, polishing code quality and reducing production issues.

FiatMatch   *May 2023 – August 2023*

Software Developer

- Designed and integrated **10+** key features for a **FinTech money transfer platform**, completing the project a week before schedule.
- Developed UI components using **React**, **TypeScript**, and **Material UI**, reducing development time by **30%**.
- Streamlined **API integration**, cutting load times by **25%** and improving app performance.
- Utilized **Agile methodologies** (ClickUp) and **Slack** for effective team coordination and cross-team collaboration.

Infinity Brains   *March 2021 – October 2021*

Laravel Developer

- Created **backend systems** for 2 major projects using **MVC architecture** in **Laravel**, ensuring scalable and secure systems.
- Provided **one-on-one mentorship** to junior team members, helping them improve their **problem-solving skills** and overall development efficiency.
- Strengthened backend infrastructure with **optimized code**, achieving a **20%** performance gain.
- Collaborated on **CI/CD pipeline** and utilized **Git** for version control, ensuring smooth team workflows and high-quality code.

Flying Bird International   *August 2019 – February 2021*

Software Developer

- Crafted and oversaw front-end components using **HTML**, **CSS**, and **JavaScript**.
- Worked closely with clients to **understand requirements** and translate them into front-end development technical specifications.
- Optimized **Mysql** database queries, reducing query execution time by **15%**, leading to enhanced website performance and faster load time.

Narola Infotech   *January 2019 – July 2019*

Software Developer

- Contributed to the development and maintenance of **TweakTown**, a leading tech review website with **millions of monthly visitors**.
- Integrated **Amazon Product** API with the database, elevating the website's monetization strategy and affiliate revenue.
- Advanced database queries, cutting query execution time by **15%**, and upgrading overall website performance.
- Fixed **critical frontend and backend bugs**, fine-tuned website stability and user experience.

EDUCATION

Humber College, Toronto   *January 2022 – August 2023*
Post Graduate Diploma – Information Technology Solutions – 8.50/10

Sarvajanik College of Engineering and Technology, India   *August 2015 – May 2019*
Bachelor of Engineering – Information Technology – 8.59/10

PROJECTS

JobPortal – *[View Project](#)*
- Developing a full-fledged Job Portal using the **MERN stack (Mongodb, Express.js, React.js, Node.js)** with **Redux**, **Tailwind CSS**, and **Shadcn UI**.
- Integrated modern **UI/UX best practices**, enhancing user experience and responsiveness.
- Optimized **database performance** for efficient job searches and application processes.
- Implementing **secure authentication** and scalable backend architecture.

TECHNICAL SKILLS

Frontend Development:
- React.js, React Router, React Hooks, Next.js, Redux, Context API
- JavaScript(ES5/ES6), CSS3, HTML5, Bootstrap, Tailwind CSS, ShadCN UI

Backend Development:
- Node.js, Express.js, PHP, Laravel, Java, TypeScript

Database Management:
- MySQL, MongoDB, Amazon AWS

API Development & Integration:
- RESTful APIS, Third-party API Integrations, Multer, Cloudinary

Version Control & Collaboration:
- Git, GitHub
- Jira, ClickUp, Slack, Postman, VS Code

Security & Authentication:
- JWT, Passport.js

Development Methodologies:
- Agile, Scrum, Test-Driven Development (TDD)
